

The next step in immediacy

11/06/2026

PRO
event

Location

Fort De Gagel

Gageldijk 167, 3566 MJ Utrecht

Language **English**

Registration **thecampus@camlog.nl**

Participation fee **free of charge**

Program

We are pleased to invite you to an exclusive PRO event focused on the use of our new Tapered Pro Conical implant in modern implantology. During this event, our international Key Opinion Leader, Dr. Paul Swanson, will share his clinical experience, practical insights, and proven approaches to achieving more efficient workflows and predictable outcomes.

Dr Swanson will demonstrate the application of this implant in a variety of different cases. In addition to staged cases, he will demonstrate how this implant is ideal for use in an immediate placement protocol. Don't miss this unique opportunity to connect innovation with clinical expertise and hands-on knowledge.

**We look forward
to welcoming you!**

18:30	Welcome & reception
19.00	Opening
19.05	Lecture - Part 1 Dr. Paul Swanson
20:00	Dinner
21.00	Lecture - Part 2 Dr. Paul Swanson

Speaker

Dr Paul Swanson

BDS, MFGDP (UK), PGCert (Sed),
DiplmDent RCS (Eng) (Adv Cert),
MSc (Implant), FCGDent

Paul Swanson holds an MSc in Implant Dentistry from Queen Mary University of London and is the principal of a specialist referral practice in Liverpool. He is recognized for delivering complex multidisciplinary care and for mentoring dentists at both entry and advanced levels of implantology. As a tutor for the Royal College of Surgeons Diploma in Implant Dentistry and ITI Study Club Director for Liverpool, he also co-directs IDEAL and lectures nationally and internationally on advanced implant rehabilitation, including immediate full-arch loading.

Immediacy and simplification in
modern implantology
